Good morning Valois

Attached is the revised comments table for the Dewey-Burdock permits. This reflects final QA of the draft table we delivered in January. Most of the changes were to move comments among categories; we also added a couple of comments that were missing in the January draft. The RtC document already reflects these changes.

Please let me know if you have any questions.

I believe this completes the required Task 3 and Task 4 activities – please let me know if you are expecting anything else from us.
